3. Fencing the land and starting a sustainable food security and livestock farming project
4. Converting existing empty buildings into affordable tourist and volunteer accommodation

Further Interventions include:
A formalized reunification process.
- An exit strategy for children over the age of 18.
- Capacity building with regard to childcare and stimulation, life skills and independent living.
- Policies with regard to employment, health, assets, emergencies and risk.
- The leveraging of tourism within the area to provide income for the Centre.

Commitments:
The Staff and management of the Centre are committed to
- Ensuring that sound financial accountability structures are put in place and are regularly adhered to.
- Mobilizing Methodists in the Lesotho region, NFS & Lesotho District and the Connexion
- Strengthening relations with and involvement of the local community.
- Strengthening relationships with partners, sponsors and donors, including departments of the government of Lesotho.

Donations and Support

Anyone willing to offer expertise, financial support, donations in kind (non-perishable foods) or assistance through work parties or volunteerism is requested to contact the Mission Unit.

Strategic Objectives and Interventions

The MCSA has commissioned a Rapid Assessment Audit of the Centre and recommendations include:

- The building of an efficient new administrative structure including human resource capacity, a clear organogram and a team building process.
- Applying for grants to purchase medication and other supporting services.
- Repairing and maintaining the existing infrastructure. Fencing is also needed.
- Finding sustainable ways of supporting the Centre financially.
- Getting buy-in and involvement from the local community and formalizing relationships with key stakeholders and interested potential partners.

Key objectives include:

1. Rehabilitating the infrastructure to safe, clean and liveable standards for children and staff
2. Exploring the possibility of restoring a health facility within the old hospital building
